

PLACEMENT TEST

This institution has two mandatory placement test; one in Mathematics and one in English Language. These are used for two main reasons:

1 To assist in admissions in the Fall semester was CSEC results is not readily available

2. To determine level of Mathematics and English language competence. This allows for better placement in the required Mathematics and English general requirement courses.

NB: student interested in doing more than 1 major. With CSEC results outstanding no more than 2 majors can be done. To be afforded the opportunity to do two majors students must pass both placement test.

ENGLISH PLACEMENT

If the student's placement score is:

85 % -100%: Student starts at ENG114 (no pre-requisite required; therefore, the student can complete their communication requirements)

50-84%: Student starts at ENG111 (only ENG11 pre-requisite required prior to completing Communication requirements)

Less than 50%: Student starts at ENG0101 (ENG0101 & ENG11 pre-requisites are required prior to completing Communication requirements)

NB: English majors start with ENG112 once they have 50% and above on the placement test.

Paths for Communication course requirements

- 1. ENG101---ENG111---ENG114----ENG122-----ENG213
- 2. ENG101---ENG111---ENG114---ENG125
- 3. ENG101---ENG111---ENG114---ENG122 & BUSI211(ENG122 and BUSI211 can be done simultaneously or one after the other)
- 4. ENG101---ENG111---ENG114---ENG125 & ENG213 (ENG125 and ENG213 can be done simultaneously or one after the other)
- 5. ENG101---ENG111---ENG114---ENG122 & BUSI211----ENG211 (ENG122 and BUSI211 can be done simultaneously or one after the other. However, ENG122 must be done before ENG211)

MATHEMATICS PLACEMENT

67%-100%: Student starts with the required Mathematics requirements (*no pre-requisite required; therefore, the student can complete their communication requirements*)

50%-66%: Student starts with pre-requisite MATH117 (*(only MATH117 pre-requisite required prior to completing Communication requirements)*

25%-49%: Students start with pre-requisites MATH0101 followed by MATH0102 (MATH0101 and MATH0102 are pre-requisite required prior to completing Mathematics requirements)

0%-24%: Students start with pre-requisites MATH0101 and simultaneous tutorial course followed by MATH0102 and simultaneous tutorial course (MATH0101 and MATH0102 and tutorial courses are pre-requisite required prior to completing Mathematics requirements)

STATE

NB: all pre-requisite courses must be successfully completed before moving on to required Communication and Mathematics general education required course.

BUILDING & CIVIL ENGINEERING TECHNOLOGY TOTAL CREDITS REQUIRED: 93 Credits GENERAL EDUCATION REQUIREMENTS (24 credits)

CATEGORY	CREDITS REQUIRED	COURSES COMPLETED	SEMESTER COMPLETED	GRADE

NB: The Dominica State College reserves the right to review academic graduation requirement at any time based on academic review and feedback from stakeholders. Additionally degree plans are design to allow students with one major and meeting all pre-requisite to graduated in two years. Having multiple majors or low/probationary GPA may require students to remain longer than two years to complete their majors.
